State-of-the-Art Research on Thoracic Surgery

Message from the Guest Editor

The Special Issue titled “State-of-the-Art Research on Thoracic Surgery” will feature the latest innovations and advancements shaping the field of thoracic surgery. This Special Issue will explore the integration of cutting-edge technologies, including 3D imaging, artificial intelligence, and virtual reality, which are transforming surgical planning and enhancing precision in complex thoracic procedures. Articles will delve into the optimization of surgical processes, with a focus on improving workflow efficiency, reducing intraoperative complications, and enhancing patient outcomes. This Special Issue will highlight the role of robotics and minimally invasive techniques, showcasing how these technologies are reducing recovery times and improving the quality of life for patients undergoing thoracic surgeries. Additionally, it will cover advancements in real-time intraoperative navigation systems and the use of augmented reality to provide surgeons with enhanced visualization and decision-making tools.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
