

## Special Issue

# Endoscopy and Minimally Invasive Surgery in Children and Adolescents

### Message from the Guest Editors

Pediatric digestive advanced endoscopy is an emerging field. Several conditions which were previously difficult to diagnose and treat now have more options with this progress. An aggressive endoscopic environment is not limiting but instead supportive for a safer or more effective minimal surgery when necessary. In this Special Issue, we welcome authors to submit papers on pediatric therapeutic endoscopy and minimally invasive surgery in terms of both diagnosis and treatment.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
