Oral and Maxillofacial Surgery: Recent Advances and Future Directions

Message from the Guest Editors

We invite you to participate in this Special Issue of JCM “Oral and Maxillofacial Surgery: Recent Advances and Future Directions”. The combination of tried-and-tested techniques in the field of oral and maxillofacial surgery and new innovations in interdisciplinary therapy will be the topic of this Special Issue. Both theoretical approaches and practical experiences will be exchanged and presented here. Manuscripts on the presentation of clinical applications, use of new therapeutic methods and treatment of complex cases are also very welcome. We look forward to receiving your submissions to this Special Issue.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
