

Special Issue

Toward Improved Evaluation, Treatment, and Management of Movement Disorders and Cognitive Impairments in People with Cerebral Palsy

Message from the Guest Editors

This Special Issue aims to report a collection of high-quality research in the field of cerebral palsy, conducted in the last 5-years, using state-of-the-art methodology to explore questions associated with evaluation, treatment and/or management. Topics of interest include, among others, novel methods to reliably assess motor- and non-motor impairments, medical and rehabilitation interventions in paediatric and adult populations, technology solutions to increased activity and participation levels, telehealth, wearables, neuroimaging techniques and artificial intelligence.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
