

Special Issue

Diagnosis and Treatment of Gastrointestinal Malignancies

Message from the Guest Editors

This Special Issue will mainly focus on analyzing present and future approaches for the treatment of gastrointestinal (GI) cancer patients, with a glimpse of novel perspectives and future challenges in clinical practice. GI cancers include a very wide spectrum of neoplasms, such as esophageal, gastric, hepatic, biliary, pancreatic, small bowel, and large bowel, as well as rectal cancers. In the last decade, significant improvements have been made in the prognosis of patients affected by these tumors thanks to the development of new treatments, which include cytotoxic drugs, targeted therapies, and immunotherapy. Recently, emerging and novel biomarkers have been identified and validated, with a huge impact on patient outcomes and improving the treatment landscape. Despite these advances, GI cancers still represent a major public health problem worldwide; hence, it is mandatory to develop novel therapeutic approaches.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2026).
