

## Special Issue

# Novel Insights for Imaging and Therapy in Maternal and Fetal Medicine

### Message from the Guest Editor

From measuring nuchal translucency to NIPT for early aneuploidy screening and from second-trimester uterine artery pulsatility to the first-trimester screening for preeclampsia and its prevention using aspirin, maternal and fetal medicine are at the forefront of key advancements in early diagnosis. Owing to technological improvements in ultrasound and magnetic resonance imaging and the increasing performance of whole-exome sequencing, numerous congenital diseases, malformations, and syndromes are currently or soon to be diagnosed much earlier on during pregnancy, even during the first trimester. These possibilities may lead to the development of new therapies or management protocols, such as the prevention of preterm birth, fetal growth restriction, macrosomia, etc. In this Special Issue, we invite authors to submit papers on new maternal and fetal imaging technologies, advances in prenatal diagnosis, and new insights for maternal and fetal treatment.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
