

Special Issue

Targeted Diagnosis and Treatment of Glaucoma

Message from the Guest Editor

This Special Issue provides insights into the latest advancements in the clinical management of glaucoma. It covers early detection methods, accurate diagnosis strategies, treatment options, patient monitoring and follow-up care. The issue aims to improve patient outcomes and enhance the overall management of this chronic eye disease. Key topics include identifying individuals at risk, reducing intraocular pressure through medications and surgical interventions, assessing disease progression and managing the impact of glaucoma on patients' quality of life. This Special Issue is a valuable resource for healthcare professionals involved in the diagnosis and treatment of glaucoma.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
