

Special Issue

Paradigm Changes in the Surgical and Trans-Catheter Treatment of Cardiac Diseases

Message from the Guest Editors

In this operative-focused Special Issue of *JCM* that is centred on cardiac surgery and trans-catheter interventions, we aim to gather modern, up-to-date techniques, strategies, and guidelines in the treatment of ischaemic, structural, and electrophysiological heart diseases. Our purpose is to shed light on state-of-the-art techniques, propose new “golden standards” in the field of cardiac surgery and trans-catheter cardiac interventions, and summarise therapeutical guidelines in order to achieve the best and most suitable treatment of the patients suffering with cardiac issues. We are looking forward to receiving your excellent contributions.

Guest Editors

Dr. Attila Thury

Invasive Cardiology Unit, Cardiology Center, University of Szeged, H-6720 Szeged, Hungary

Dr. Miklos Bitay

Second Department of Internal Medicine and Cardiological Center, Department of Cardiac Surgery, University of Szeged, Szeged, Hungary

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
