

Special Issue

Pediatric Ophthalmology: Current Progress and Future Options

Message from the Guest Editors

This Special issue focuses on updated knowledge on various aspects of visual health in children, from diagnosis to therapies. Pediatric vision care encompasses a broad spectrum of challenges, including the early detection of refractive errors and amblyopia, management of inherited diseases, acquired ocular pathology, and long-term rehabilitation. We invite original researches and reviews on epidemiology, risk factors, and innovative diagnostic approaches such as advanced imaging, ocular biometry, and functional assessments. Topics include refractive error management, amblyopia and strabismus therapies, pediatric cataract and aphakia rehabilitation, ocular surface disease, myopia prevention and control, inherited eye diseases, and systemic disorders affecting vision. Submissions are also encouraged on the integration of artificial intelligence, telemedicine, and novel screening technologies into pediatric practice, as well as low-vision aids and vision rehabilitation strategies. This Special Issue highlights emerging therapies and promotes interdisciplinary collaboration to improve pediatric vision outcomes globally.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67081
