

Special Issue

Clinical Endoscopic Management of Pancreaticobiliary Diseases

Message from the Guest Editor

The Special Issue delves deeply into the advanced clinical management of pancreatic diseases, shedding light on the utilization of advanced endoscopic techniques to diagnose, treat, and monitor disorders affecting the pancreas. Four main topics will be included in this issue. Clinical and endoscopic management of Acute recurrent pancreatitis. Chronic obstructive pancreatitis. Fluid collections and walled-off necrosis. Pancreatic solid lesions. The collection of articles within this Special Issue encapsulates the evolution and refinement of advanced endoscopic techniques. It provides a detailed roadmap of best practices and emerging trends in pancreatic endoscopy. The Special Issue serves as a valuable compendium for gastroenterologists, endoscopists, surgeons, and other healthcare professionals involved in the multidisciplinary approach to pancreatic diseases.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
