

Special Issue

Advances in Musculoskeletal Tumor Surgery and Limb Salvage Reconstruction

Message from the Guest Editors

Musculoskeletal tumor surgery continues to advance rapidly, driven by improvements in oncologic reconstruction, limb salvage techniques, perioperative care, and outcome research. As survival rates improve for patients with primary and metastatic bone and soft tissue tumors, surgeons more frequently face complex reconstructive challenges. This Special Issue aims to present and share the latest advances in musculoskeletal tumor surgery and reconstruction. We welcome contributions that focus on current surgical techniques, perioperative optimization methods, reconstructive innovations, and outcomes research involving primary bone tumors, soft tissue sarcomas, and metastatic disease. Topics of interest for publication include, but are not limited to, the following:

- Limb salvage reconstruction and endoprosthetic techniques
- Management of metastatic bone disease and pathologic fractures
- Perioperative optimization and complication prevention
- Outcomes following oncologic arthroplasty
- Surgical innovation and emerging technologies
- Functional outcomes and survivorship research

We welcome original research articles and reviews advancing care in musculoskeletal oncology.

About the Journal

Message from the Editor-in-Chief

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2026).
