

## Special Issue

# Severe Infection and Antimicrobial Management in ICU

### Message from the Guest Editor

The early diagnosis of severe infections, such as bacteremia or severe respiratory infections, is very important, and can save patients' lives. A number of new diagnostical methods have been developed in recent years. Some of them have great potential to be used in ICUs. Many studies on antimicrobial management in ICUs have been performed in recent years. Rational antibiotic treatment is essential to save patients' lives and avoid antibiotic resistance. There are many studies that can be carried out in the field. Monitoring severe infections and antimicrobial management in ICUs is also a very important topic that can provide us with valuable information to help us better understand infections and save lives.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
