

## Special Issue

# Review Special Issue Series: Recent Advances in Plastic, Reconstructive and Aesthetic Surgery/Aesthetic Medicine

### Message from the Guest Editor

Recent advances in plastic surgery, especially in craniofacial, bone biology, wound healing, tissue engineering, and microsurgery, have led to complex and successful reconstructions. Innovative imaging techniques like ultra-high-frequency ultrasound have transformed lymphatic surgery. Breast reconstruction techniques have improved for the benefit of cancer patients. Emerging technologies like nanotechnology, tissue engineering, and regenerative medicine show promise in organ function restoration. The popularity of aesthetic surgery has sparked interest in new injectables and anti-aging treatments, including advancements in adipose tissue procedures, facelifts, and non-invasive treatments. However, diseases necessitating reconstructive surgery, such as lymphoma, remain mysterious. Social media pressures encourage unverified procedures, emphasizing the need for precise data collection and analysis. Join us in contributing to our Special Issue, "Advances in Plastic Surgery." We welcome original research, reviews, and overviews in these fields. Sincerely, ,

---

### Guest Editor

Dr. Roberto Cuomo

Plastic and Reconstructive Surgery Unit, Department of Medicine, Surgery and Neuroscience, University of Siena, Siena, Italy

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
