

## Special Issue

# Clinical Advances in Plastic Surgery

### Message from the Guest Editor

Innovation—the key driver in the field of plastic and hand surgery for the last decades or even centuries—has led to continuous surgical evolution, ensuring the survival of this unique specialty and fostering its interaction with other surgical disciplines. While major innovations, such as the establishment of microsurgery, tissue allotransplantation, and endoscopic or robotic surgery, enable a completely new direction of this discipline and even define an entire era of a certain specialty, seemingly smaller advancements and refinements of the existing techniques appear to power the engine for continuous development. Additionally, the implementation of novel techniques that are already in use in other medical and non-medical fields, such as 3D imaging, the use of lasers, ICG imaging and other auxiliary techniques, allow to further improve both clinical outcomes and patient care. The aim of this Special Issue is to collate up-to-date research on new clinical advancements in plastic and hand surgery. We invite submissions of manuscripts that address any of the aforementioned issues.

---

### Guest Editor

Dr. Thomas Holzbach

Department of Hand and Plastic Surgery, Thurgau Hospital Group, Frauenfeld, Switzerland

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
