Cardiovascular Risks in Autoimmune and Inflammatory Diseases

Message from the Guest Editors

Autoimmune and inflammatory diseases, such as rheumatoid arthritis, systemic lupus erythematosus, psoriasis, and inflammatory bowel disease, significantly increase the risk of cardiovascular morbidity and mortality, and yet the precise mechanisms remain incompletely understood. Chronic inflammation, immune dysregulation, endothelial dysfunction, and metabolic disturbances accelerate atherosclerosis, promote thrombosis, and increase the risk of acute cardiovascular events. However, current early detection, risk stratification, and preventive and therapeutic strategies are suboptimal. This Special Issue will bridge the gap between autoimmunity and cardiovascular pathology by exploring novel biomarkers, uncovering mechanistic insights, and assessing the impact of immunomodulatory or biological therapy on cardiovascular risks. We invite original research, reviews, and clinical studies focusing on immune-mediated vascular damage, inflammatory pathways, lipid metabolism, thrombosis, and the impact of immunosuppressive therapies on cardiovascular outcomes.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
