Clinical Advances in Oral Maxillofacial Surgery

Message from the Guest Editor

Oral and maxillofacial surgery represents a crucial intersection of art and science in healthcare, offering hope and enhanced quality of life to countless numbers of patients each year. Recently, technological advancements, cutting-edge research, and novel therapeutic strategies have opened new horizons in this dynamic field. This field's breadth ranges from the surgical management of oral cancer, cleft lip and palate, and craniofacial trauma, to non-surgical treatments for TMJ disorders and obstructive sleep apnea. Our aim with this Special Issue is to create a comprehensive, illuminating, and relevant compendium that would aid practicing surgeons, scholars, and students in understanding the latest developments and techniques in this diverse field. We encourage you to delve into the nuances of this rapidly evolving field, share your expertise and insights, and thereby contribute to shaping the future of oral and maxillofacial surgery. Your submissions will not only inform your peers about the most recent developments but also inspire future breakthroughs in patient care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
