

Special Issue

Clinical Aspects of Infectious Diseases

Message from the Guest Editor

Humans continuously face the threat of infectious diseases. The COVID-19 pandemic has shaken up economies and healthcare systems worldwide. Dengue virus is continuously mutating. Prolonged infection, early bleeding and hepatitis complications have been observed in the most recent dengue outbreak.

Highly effective treatment is available for hepatitis C virus, but the world is still struggling to develop an effective drug for hepatitis B virus.

Drug resistance is a common problem. In some countries, there is excessive, unnecessary and self-use of antibiotics, further exacerbating the issue.

Tuberculosis also presents a major problem in lower- and middle-income countries. Herpes simplex virus 2 affects over 536 million people worldwide.

There is a need to study the clinical picture, drug treatment response, vaccine response and resistance pattern of different bacterial and viral diseases. This Special Issue will cover original articles, review papers and commentaries on the clinical picture of different infectious diseases.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi
