

Special Issue

Targeted Diagnosis and Treatment of Shoulder and Elbow Disease: 2nd Edition

Message from the Guest Editors

It is my pleasure to invite you to contribute to this Special Issue, entitled “Targeted Diagnosis and Treatment of Shoulder and Elbow Disease: 2nd Edition”. This is the second edition; we published nine papers in the first. For more details, please visit https://www.mdpi.com/journal/jcm/special_issues/L5BUF7U0OF. The primary topics of this Special Issue include diagnosis, treatment, and rehabilitative relapses in shoulder and elbow disease. We look forward to your participation in this Special Issue, which will provide a platform for sharing knowledge with the scientific community, with the ultimate goal of positively influencing the treatment and care of patients.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
