

Special Issue

Advances in Aortic Surgery

Message from the Guest Editors

This *Journal of Clinical Medicine* Special Issue focuses on the significant advancements in aortic and aortic valve surgery. It highlights the evolution of aortic surgery, driven by innovations in imaging, surgical strategies, and perioperative care, which have made complex procedures safer and more effective. The issue will explore the latest technologies, focusing on diagnostic and operational innovations. It highlights cutting-edge diagnostic technologies, including 4D MRI and high-resolution CT, which enhance the precision of aortic disease assessment. On the operational side, the issue covers contemporary minimally invasive techniques, endovascular treatments, and transcatheter approaches, showcasing their impact on improving surgical outcomes and patient recovery. The goal is to share cutting-edge research, case studies, and reviews that contribute to improving patient outcomes in this rapidly evolving field.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
