

## Special Issue

# New Approaches and Technologies in Orthodontics—2nd Edition

### Message from the Guest Editors

In the last few years, new diagnostic and therapeutic approaches have been developed in orthodontics. New tools such as intraoral scanners, digital models, and cone beam computerized tomography have gradually become widely used, improving diagnoses, especially of impacted teeth, dental transpositions, and facial anomalies. Patients are focusing more on treatment time and aesthetics, so techniques to accelerate orthodontic movement, such as corticotomy, pulsed-light and mechanical vibrations, and clear aligners to improve aesthetics, are being used more frequently. The aim of this Special Issue is to assess the scientific evidence of diagnostic and treatment innovations in orthodontics to expand our knowledge and support both scientific and clinical outcomes. Thus, for the second edition of the Special Issue of *Journal of Clinical Medicine* (PubMed indexed ISSN 2077-0383; IF = 3.9), we are delighted to invite investigators to submit original research articles (trials, cohort studies, and case-control and cross-sectional studies) and literature reviews (narrative or systematic reviews and meta-analyses), all focusing on new orthodontic techniques or clinical solutions.

### Guest Editors

Dr. Vincenzo Grassia

Dr. Fabrizia d'Apuzzo

Prof. Dr. Letizia Perillo

### Deadline for manuscript submissions

closed (30 June 2024)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
