Advancements in Ovarian Cancer Management: From Early Detection to Precision Therapies

Message from the Guest Editor

Epithelial ovarian cancer is the leading cause of death from malignancies of the female genital tract. Modern combination treatment has only slightly improved outcomes due to disease heterogeneity, drug resistance, and refractory disease in recurrent patients. Advancements in technology, a deeper understanding of tumour biology, and a focus on personalized medicine are poised to significantly influence the surgical management of advanced-stage ovarian cancer. To address this, submissions highlighting high-quality, original studies are particularly encouraged, especially those exploring innovative precision approaches, and the integration of artificial intelligence to maximize surgical and treatment outcomes. We hope this Special Issue will represent a comprehensive approach to ovarian cancer and align with current research priorities and clinical needs while emphasizing innovation and patient-focused care. The submitted manuscripts for this Special Issue will be peer-reviewed before publication.

Guest Editor

Dr. Alexandros Laios

Department of Gynaecologic Oncology, ESGO Center of Excellence for Ovarian Cancer Surgery, St James's University Hospital, Leeds, UK

Deadline for manuscript submissions

31 August 2025

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
