

Special Issue

Application of Interventional Therapy in Cardiovascular and Cerebrovascular Diseases

Message from the Guest Editor

This Special Issue presents a comprehensive overview of the advances and application of interventional therapy in the treatment of cardiovascular and cerebrovascular diseases. It covers a wide range of topics, including the latest techniques and technologies, clinical studies, outcomes, and challenges in interventional therapy. The key topics covered in this Special Issue include the role of interventional therapies for acute myocardial infarctions, coronary artery disease, stroke, carotid artery disease, peripheral artery disease, pulmonary embolism, and hypertension. It also discusses the development of minimally invasive procedures, such as percutaneous coronary intervention, endovascular therapy, and transcatheter aortic valve replacement, and their significant impact on patients' outcomes. In conclusion, this Special Issue serves as a valuable resource for healthcare professionals and researchers interested in advancing the field of interventional therapy for cardiovascular and cerebrovascular diseases.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
