

Special Issue

Endocrine Tumors: Diagnosis, Treatment, and Management

Message from the Guest Editors

This Special Issue aims to provide a comprehensive platform for researchers, clinicians, and experts in the field of endocrinology to share their latest findings and advancements in the diagnosis, treatment, and management of endocrine tumors. The Special Issue welcomes original research articles, reviews, and clinical studies that focus on various aspects of endocrine tumors, including but not limited to diagnostic techniques, therapeutic approaches, and long-term management strategies. We encourage submissions that highlight novel insights, innovative methodologies, and significant contributions to the understanding and treatment of endocrine tumors. We invite researchers and experts in the field to contribute their valuable work to this Special Issue. By bringing together diverse perspectives and cutting-edge research, we aim to foster collaboration and advance knowledge in the field of endocrine tumor research.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
