

## Special Issue

# Hypertrophic Cardiomyopathy: New Insights into Complications and Treatment

### Message from the Guest Editors

Hypertrophic cardiomyopathy represents the most common inherited cardiac disease and remains a leading cause of sudden cardiac death and heart failure in young and adult populations. Despite remarkable advances in genetic characterization and imaging-based phenotyping, this pathology is a heterogeneous condition with complex clinical trajectories. This Special Issue, *"Hypertrophic Cardiomyopathy: New Insights Into Complications and Treatment,"* focuses on the evolving landscape of hypertrophic cardiomyopathy management, from arrhythmic and heart failure complications to novel therapeutic strategies.

Contributions will explore mechanisms and predictors of adverse remodeling, the role of advanced multimodality imaging—including cardiac magnetic resonance and strain analysis—and the impact of emerging pharmacologic agents such as myosin inhibitors. Special attention will be devoted to personalized approaches integrating genetics, imaging biomarkers, and artificial intelligence for improved risk stratification and patient selection.

---

### Guest Editors

Dr. Ilaria Dentamaro

Cardiology Unit, Interdisciplinary Department of Medicine (DIM),  
University of Bari Aldo Moro, University Hospital Consortium, Polyclinic  
of Bari, Bari, Italy

Dr. Ciro Santoro

Department of Advanced Biomedical Sciences, University of Naples  
Federico II, Naples, Italy

---

### Deadline for manuscript submissions

20 July 2026

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
