

## Special Issue

# Dental Implant Surgery: Clinical Updates and Perspectives

### Message from the Guest Editor

The scope of this Special Issue in *JCM* entitled “Dental Implant Surgery: Clinical Updates and Perspectives” is to evaluate and improve evidence-based implant dentistry to include predictable, extended dental treatment values. We intend to cover a wide range of materials and techniques applied in all dental disciplines, including oral rehabilitation, periodontology, dental implantology, oral, and maxillofacial reconstruction and pediatric dentistry. Modern pediatric treatments lead to enhanced outcomes, and new materials and techniques have been introduced and applied in clinical practice. This Special Issue will be dedicated to all the rehabilitative materials and techniques used in implant dentistry, related to all dental Desplaines.

### Guest Editor

Prof. Dr. Joseph Nissan

Department of Oral Rehabilitation, The Faculty of Medicine, The Maurice and Gabriela Goldschleger School of Dental Medicine, Tel Aviv University, Tel Aviv 69978, Israel

### Deadline for manuscript submissions

closed (30 October 2024)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
