Transcatheter Aortic Valve Implantation: Recent Advances and Future Prospects

Message from the Guest Editors

Transcatheter aortic valve implantation (TAVI) has utterly reformed the management of symptomatic severe aortic stenosis. As new technologies have been introduced and techniques of implantation have been revolutionized, TAVI has now become the leading therapeutic strategy for aortic valve replacement in most patients with severe symptomatic AS. The more contemporary minimalistic approach using conscious sedation or even just local anesthesia. We are pleased to invite you to submit articles regarding the forthcoming Special Issue entitled “Transcatheter Aortic Valve Implantation: Recent Advances and Future Prospects”. In this Special Issue, original articles and reviews are welcome. Research areas may include but are not limited to the following:

- Outcomes post-TAVI;
- Comparison of different bioprostheses regarding haemodynamic performance post-TAVI, rates of PPM implantation and paravalvular leaks;
- The role of revascularization in patients undergoing TAVI;
- Lifelong management of patients with severe aortic stenosis;
- TAVI and minimalistic approach;
- Comparison of different access routes during TAVI.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
