New Insights into Thoracoscopic, Minimally Invasive Cardiac and Cardio- Vascular Surgeries

Message from the Guest Editor

Over the years, thoracic surgery has acquired considerable innovations facilitated by advanced techniques of thoracoscopic surgery and robotic-assisted thoracic surgery. Minimally invasive surgical approaches are also becoming more common in cardiac surgery. The development of transcatheter techniques has revolutionized the endovascular treatment of valve diseases, as well as thoracic and/or abdominal aortic diseases. Advances in medical devices and surgical techniques continue to enhance the quality of life for patients with cardiovascular and cerebrovascular diseases. We invite original research articles, comprehensive reviews and clinical studies that contribute to the existing knowledge of thoracic surgery, cardiac surgery and vascular surgery. Submissions should focus on clinical insights, recent progress and the application of new technologies in the field.

Guest Editor

Dr. Alfonso Fiorelli

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
