

Special Issue

Clinical Application of Echocardiography in Heart Disease: 2nd Edition

Message from the Guest Editor

It is our pleasure to invite you to contribute to this Special Issue entitled “Clinical Application of Echocardiography in Heart Disease: 2nd Edition”. This is a new volume; first

volume. https://www.mdpi.com/journal/jcm/special_issues/2UW9468CO0. The progress of echocardiography use in all areas of cardiology has been remarkable. Since its introduction in clinical practice in 1954 by I. Edler, there has been an increase in technological advances in transthoracic, transesophageal, and stress echocardiography. In recent years, echocardiography invaded the angiography and operating rooms, monitoring a myriad of diagnostic and therapeutic procedures. Its role in Intensive Care units and in the emergency departments has become outstanding, improving survival and the prognosis of our patients. The absence of radiation also favors the use of echocardiography as the first-line diagnostic method in most cardiac pathologies. In this Special Issue, we welcome authors to submit papers with a focus on the clinical applications of the various forms of echocardiography in heart disease.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
