

## Special Issue

# New Perspectives on Diagnosis, Prognosis and Treatment of Tricuspid Regurgitation According to Etiology

### Message from the Guest Editor

Tricuspid regurgitation (TR) remains a clinically challenging condition with diverse etiologies and variable outcomes. This Special Issue explores contemporary advances in TR management, emphasizing etiology-specific approaches to improve patient stratification and therapeutic decision-making. We aim to highlight innovative diagnostic tools, prognostic biomarkers, and tailored treatment strategies that address the distinct pathophysiological mechanisms underlying primary, secondary, and isolated TR. We encourage submissions that cover topics including, but not limited to:

- Novel imaging modalities for TR severity assessment;
- Risk stratification models based on etiology and right ventricular adaptation;
- Transcatheter interventions for different TR subtypes;
- Surgical outcomes and technique refinements;
- Medical management optimization in specific patient cohorts.

This Special Issue will provide clinicians with evidence-based insights to refine TR management across the disease spectrum.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
