

Special Issue

Advances in Diagnostic and Surgical Treatment in Lung Cancer and Related Pulmonary Disorders

Message from the Guest Editors

This Special Issue focuses on the evolving role of diagnostics and surgery in the care of patients with lung cancer and complex pulmonary diseases. In an era of rapid technological advancement, the human element of medicine—timely diagnosis, thoughtful decision making, skilled surgical care and personalized multimodal management—remains at the heart of patient outcomes. We welcome clinical research and review articles (but not exclusively) that explore the following topics: Practical innovations in imaging and early diagnosis; Minimally invasive and robotic-assisted surgeries that reduce patient burden; Perioperative care and enhanced recovery after surgery (ERAS) protocols; Multidisciplinary treatment pathways; Personalized treatment planning based on diagnostic insights; Combination therapies involving surgery, radiotherapy, chemotherapy, and immunotherapy; Patient-centered management of adverse effects and complications; Challenges in treating advanced or inoperable cases; Surgical treatment of infections, malformations, and inflammatory lung diseases; Patient-centered outcomes, recovery, and quality of life.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
