

Special Issue

New Trends in the Management of Periodontitis and Peri-Implantitis

Message from the Guest Editor

This Special Issue, entitled “New Trends in the Management of Periodontitis and Peri-implantitis”, This Special Issue seeks to address core problems such as the limitations of traditional treatments, the need for personalized medicine, and the integration of cutting-edge technologies such as laser therapy, biomaterials, and molecular biology techniques. By assembling a diverse collection of studies and reviews, it will provide comprehensive insights into preventive measures, early detection, and holistic management approaches. The scope of this Special Issue encompasses clinical and translational research, including novel diagnostic markers, advanced surgical techniques, regenerative therapies, and the impact of systemic health on periodontal and peri-implant diseases. This Special Issue calls for contributions from researchers, clinicians, and industry experts dedicated to enhancing patient outcomes and advancing the field of periodontology. About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
