

## Special Issue

# New Perspectives in Liver Transplantation and Biliary Complications

### Message from the Guest Editors

We are pleased to invite you to contribute your valuable articles to our medical journal, focusing on the theme “New Perspectives in Liver Transplantation and Biliary Complications”. This highly relevant medical topic requires in-depth scientific and clinical exploration, and your contribution could make a significant difference in improving medical practices and patient outcomes. Liver transplantation represents one of the most complex and delicate surgical procedures, and biliary complications are among the most common and challenging issues that can arise post-operatively. The organ shortage imposes the use of increasingly marginal donors, both among dead brain donors (DBD) and among dead cardiocirculatory donors (DCD). Articles exploring new surgical techniques, pre- and post-operative management protocols, and innovative studies are particularly welcomed. We invite you to share your clinical experiences, original research, and literature reviews that can contribute to a better understanding of the biliary complications in the context of liver transplantation. Each article will undergo rigorous peer review to ensure the highest scientific quality.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
