

## Special Issue

# Clinical Update on the Diagnosis and Treatment of Heart Failure

### Message from the Guest Editors

Heart failure (HF) is a clinical syndrome resulting from structural and/or functional abnormalities of the heart and has a high prevalence in Western countries, significantly impacting their healthcare systems. Despite recent innovations, the treatment and management of HF remain challenging.

Currently, several novel and existing technologies are available for HF treatment, allowing multiple therapeutic strategies. Innovations in pharmacology and percutaneous technologies include soluble guanylate cyclase stimulators, selective cardiac myosin activators, transcatheter treatment of valvular disease, atrial flow regulator devices, left ventricle remodeling systems, cardiac resynchronization therapy, and contractility modulation.

This Special Issue aims to provide a focused update on new clinical data and perspectives in the field of heart failure, encompassing diagnosis, management, innovative treatments, and novel technologies. It will serve as a forum for high-quality original research and review articles, showcasing the latest clinical advances and future perspectives in HF management.

### Guest Editors

Dr. Giulia Nardi

Division of Structural Interventional Cardiology, Careggi University Hospital, 50134 Florence, Italy

Dr. Alessio Mattesini

Division of Structural Interventional Cardiology, Cardiothoracovascular Department, Careggi University Hospital, 50134 Florence, Italy

### Deadline for manuscript submissions

26 February 2026

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
