Surgical Management of Vascular Diseases: Challenges and Innovations in the 21st Century

Message from the Guest Editor

The field of vascular surgery continues to evolve rapidly, driven by technological innovations, refined patient selection criteria, and a growing emphasis on long-term functional outcomes. This Special Issue aims to explore the evolving paradigms in vascular surgical care, encompassing both open and endovascular approaches. Recent advances have highlighted the complex interplay between demographic factors, anatomical considerations, and comorbidities in determining surgical outcomes. More findings are needed to reshape preoperative assessment and procedural selection. Simultaneously, new technologies in terms of imaging, biomaterials, and minimally invasive approaches are expanding the therapeutic possibilities.

For this Special Issue, we invite the submission of original research articles, comprehensive reviews, and clinical studies that address these critical areas.

Contributions may explore topics ranging from basic science breakthroughs to clinical implementation challenges, with particular interest in work that bridges the gap between technological innovation and improved patient outcomes.

Guest Editor

Dr. Reinhardt T. Grundmann

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
