

Special Issue

Atrial Fibrillation and Heart Failure: Diagnostic and Therapeutic Challenges and Breakthroughs

Message from the Guest Editors

We welcome submissions for this Special Issue exploring atrial fibrillation and heart failure. This Special Issue explores the complex, bidirectional relationship between atrial fibrillation (AF) and heart failure (HF). These are some of the most common and most complex pathologies, with extremely high relevance in research, especially within the clinical setting. With both conditions contributing synergistically to increased morbidity and mortality, this Special Issue highlights current diagnostic dilemmas, mechanistic insights, and therapeutic strategies. Emphasis is placed on clinical approaches, imaging techniques, risk stratification tools, and integrated care models. Contributors may present cutting-edge research, including pharmacologic and interventional innovations, aiming to optimize clinical outcomes as well as improve the quality of life. By addressing both shared and distinct clinical pathophysiological pathways, this collection offers a vast and comprehensive perspective on some of cardiology's most clinical pressing burdens.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
