

Special Issue

Latest Advances in Clinical Diagnosis and Treatment of Rheumatoid Arthritis

Message from the Guest Editors

Recent years have brought cutting-edge advancements in the clinical diagnosis and treatment of rheumatoid arthritis (RA), addressing pivotal challenges in the field. With a focus on elucidating the current research status and tackling core issues, this Special Issue aims to enhance the understanding and management of RA. Encompassing a broad scope, contributions span innovative diagnostic techniques, novel therapeutic modalities, and emerging prognostic markers. Through this Special Issue, we endeavor to foster interdisciplinary collaboration, promote knowledge dissemination, and stimulate further investigations aimed at refining RA management strategies. Together, we aspire to empower clinicians and researchers in their quest to alleviate the burden of RA and improve the quality of life for affected individuals.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
