

## Special Issue

# Clinical Research in Radiation Oncology: Current Status and Future Directions

### Message from the Guest Editor

Radiotherapy is a powerful weapon against cancer, alone or in combination with surgery or medical treatments. Much progress has been made in recent years, and new technologies have been shown to significantly increase the benefit/harm ratio, resulting in greater local control and limited toxicities. Despite this, many questions regarding the appropriateness of modern radiotherapy, the clinical management of patients, and biological issues still remain unanswered. This Special Issue of the *Journal of Clinical Medicine*, entitled "Clinical Research in Radiation Oncology: Current Status and Future Directions", aims to provide an opportunity for radiation oncologists and the entire oncology community to discuss current issues in radiotherapy and present original data, literature reviews, and consensus that reflect research and clinical interests in radiotherapy.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
