Clinical Application of Echocardiography in Heart Disease

Message from the Guest Editor

The use of echocardiography in all areas of cardiology has progressed. Since its introduction in clinical practice in 1954 by I. Edler, there has been an increase in technological advances in transthoracic, transesophageal, and stress echocardiography. In recent years, echocardiography has been used in angiography and operating rooms to monitor a myriad of diagnostic and therapeutic procedures. Its role in Intensive Care units and emergency departments has become outstanding, improving the survival and prognosis of patients. The absence of radiation also favors the use of echocardiography as the first-line diagnostic method to treat most cardiac pathologies. In this Special Issue, we invite authors to submit papers with a focus on the clinical applications of various forms of echocardiography to treat heart disease.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
