Imaging in Diagnosis and Treatment of Musculoskeletal Disorders

Message from the Guest Editors

In the field of musculoskeletal disorders, imaging is becoming increasingly important in diagnostic confirmation, prognostic stratification, decision-making, and follow-up. The integration of imaging into the management of rheumatological conditions enables earlier diagnosis and more accurate differential diagnosis and ultimately offers a comprehensive understanding of the disease. On the other hand, even in musculoskeletal disorders that are not exclusively of rheumatological origin, imaging has become a crucial tool, and making decisions without it would now seem outdated. Additionally, it is now widely established that imaging plays a vital role in interventional procedures, which, over the years, have become safer and increasingly precise thanks to the ability to guide needles to a target without crossing critical structures. For this Special Issue, we encourage authors to submit papers on applications of imaging in musculoskeletal and rheumatological conditions, in both diagnosis and treatment.

Guest Editors

Dr. Francesco Porta

Section of Rheumatology, Interdisciplinary Pain Medicine Unit, Santa Maria Maddalena Hospital, Rovigo, Italy

Prof. Dr. Florentin Ananu Vreju

Faculty of Medicine, University of Medicine and Pharmacy of Craiova, Craiova, Romania

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
