Diagnosis and Treatment of Pediatric Endocrine Disorders—Focus on Rare Conditions

Message from the Guest Editor

This Special Issue, "Diagnosis and Treatment of Pediatric Endocrine Disorders—Focus on Rare Conditions", will focus on advancing clinical approaches to managing endocrine conditions in children, with a particular emphasis on rare endocrine, diabetes, and bone metabolism disorders. It will focus on genetic diagnosis and emerging treatments for rare endocrine and metabolic bone conditions and highlight the latest strategies for diagnosing and treating diabetes in pediatric populations, including emerging therapies and technologies such as continuous glucose monitoring and insulin pumps. This Special Issue will also explore bone metabolic disorders, such as rickets, osteoporosis, and skeletal dysplasias, such as achondroplasia, addressing their diagnostic biomarkers and therapeutic interventions. Additionally, it will cover advancements in genetic testing, hormone replacement therapies, and multidisciplinary care models to optimize outcomes for children with endocrine disorders. By integrating clinical research, expert insights, and practical guidelines, this Special Issue will support pediatric endocrinologists in delivering precise, individualized care to their patients.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
