

## Special Issue

# Clinical Challenges and Advances in Periodontology and Oral Surgery

### Message from the Guest Editors

The introduction of advances in oral surgery and periodontology is a matter of interest for both surgeons and researchers. The purpose of this Special Issue is to promote the publication of recent techniques and innovations in oral and periodontal surgery. This Special Issue in this prestigious journal aims to extend this topic, Clinical Challenges and Advances in Periodontology and Oral Surgery, to the scientific plateau. Submissions may address the following topics:

- Advances in oral pathology;
- Antimicrobial and antibiotics therapy;
- Oral manifestations of systemic pathology;
- Third molar surgery;
- Periodontal disease and surgery;
- Complications and management;
- Ecological prescription of antibiotics in oral and maxillofacial surgery;
- Dental implant and bone regeneration.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
