

## Special Issue

# Clinical Management for Anesthesia Critical Care

### Message from the Guest Editor

Clinical management in anesthesia critical care represents a multifaceted approach to the critically ill patient, with a comprehensive view of all aspects that can influence outcomes. This includes managing patients in the operating room, intensive care units, and other critical care settings. Anesthesia and critical care medicine represent two of the most rapidly evolving fields in clinical practice. The increasing complexity of patient profiles, the emergence of novel technologies, and the growing emphasis on personalized and multidisciplinary approaches demand a continuous reevaluation of current management protocols. The need for evidence-based, patient-centered care has never been more urgent. Specifically, the management of critically ill patients must increasingly be personalized based on the patient's characteristics using not only technical skills but also non-technical ones. We warmly welcome researchers to contribute their work to this issue and look forward to receiving innovative and impactful submissions.

### Guest Editor

Dr. Gianluca Zani

Anesthesia and Intensive Care Unit, Umberto I Hospital, AUSL Romagna, 48022 Lugo, Italy

### Deadline for manuscript submissions

20 April 2026

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
