

Special Issue

Clinical Advances in Management of Urologic Diseases

Message from the Guest Editors

The management of urologic malignancies is undergoing rapid transformation, driven by advances in imaging, molecular profiling, surgical technique, and systemic therapy. This Special Issue, Clinical Advances in Management of Urologic Diseases, brings together cutting-edge research and authoritative reviews focused on two areas of highest global impact: prostate cancer and bladder cancer. We particularly welcome submissions that:

- Integrate imaging, genomics, and pathology to enable personalized treatment;
- Evaluate novel systemic therapies, combinations, sequencing, and biomarkers of response/resistance;
- Advance surgical and radiotherapy techniques, perioperative pathways, and functional outcomes;
- Explore bladder-preserving strategies, BCG-unresponsive disease, and management of variant histology;
- Apply AI/radiomics, liquid biopsy, and real-world evidence to improve decision-making and equity of care.

We invite original research and state-of-the-art reviews that move the field toward more accurate staging, smarter treatment selection, and better patient-reported outcomes.

About the Journal

Message from the Editor-in-Chief

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2026).
