

Special Issue

New Insights into Glaucoma

Message from the Guest Editors

We are delighted to introduce “New Insights into Glaucoma”, a new Special issue of the *Journal of Clinical Medicine (JCM)* dedicated to diagnosis, medical treatment, and surgical treatments including cataract surgery, minimally invasive glaucoma surgery (MIGS), trabeculectomy, glaucoma drainage devices, and other new surgical options. And this special issue also covers the update on artificial intelligence and glaucoma. In recent years, there have been great advances in the diagnosis and new surgical approaches for glaucoma. However, glaucoma are still the major cause of irreversible blindness. Thus, early diagnosis of glaucoma with risk calculation and proper management are still important unmet needs to address. This Special Issue aims to share expert views on the new insight into glaucoma in diagnosis and management of glaucoma. We invite authors to submit original research, reviews and clinical cases relating to these topics. We also encourage contribution from all regions of the world and look forward to receiving your recent valuable research.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
