

## Special Issue

# Recent Developments and Emerging Trends in Aortic Surgery

### Message from the Guest Editor

This Special Issue on "Recent Developments and Emerging Trends in Aortic Surgery" aims to provide a comprehensive overview of the latest advancements in the field. This Special Issue seeks to highlight cutting-edge research, innovative techniques, and emerging trends that have the potential to shape the future of aortic surgery. We invite researchers, clinicians, and experts in the field to contribute their original research articles to this Special Issue. We encourage submissions that focus on a wide range of topics related to aortic surgery, including, but not limited to, the following:

- Novel surgical approaches for aortic pathologies;
- Advances in endovascular interventions for aortic diseases;
- Imaging modalities and diagnostic techniques in aortic surgery;
- Risk assessment and perioperative management strategies.

We look forward to receiving your submissions and collaborating with you to advance our knowledge and understanding of aortic surgery.

---

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
