Recent Advancements in Periodontal and Peri-Implant Disease Management

Message from the Guest Editors

We are pleased to invite you to contribute to a Special Issue titled "Recent Advances in Periodontal and Peri-implant Disease Management" This issue aims to emphasize the importance of ongoing research in both translational and clinical fields to enhance our understanding of single and combined therapies for periodontal and peri-implant diseases and explore the pathogenesis, diagnosis, and management of these conditions.

We welcome authors to submit original research articles and reviews focusing on clinical management, with particular attention to the following areas:

- Anti-virulence therapy;
- Diagnosis;
- Host immune modulation;
- Regenerative techniques;
- Laser therapy;
- Preventive strategies;
- Periodontal medicine;
- Innovations in implantology. Please click [here](#) to find information!

Welcome to contribute!
