

Special Issue

Clinical Insights and Emerging Strategies in Chronic Pain Management

Message from the Guest Editor

Chronic pain remains a significant public health concern, and profoundly affects individuals' physical, emotional, and social well-being. This Special Issue focuses on advancements in our understanding and management of chronic neuropathic pain, with an emphasis on innovative diagnostic approaches, patient stratification, and interdisciplinary treatment strategies. Key areas of interest include the role of digital health tools, real-world evidence, and the comparative effectiveness of multimodal pain management models, particularly in conditions such as fibromyalgia, postherpetic neuralgia, and complex regional pain syndrome. We aim to compile contributions from diverse clinical disciplines in order to address early diagnosis, optimize long-term outcomes, and explore emerging therapies, including neuromodulation and pharmacological interventions. This Special Issue seeks to provide actionable insights for clinicians and researchers, fostering a collaborative dialogue that shapes the future of chronic neuropathic pain management.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
