

Special Issue

Clinical Insights and Emerging Strategies in Chronic Pain Management

Message from the Guest Editor

Chronic pain remains a significant public health concern, and profoundly affects individuals' physical, emotional, and social well-being. This Special Issue focuses on advancements in our understanding and management of chronic neuropathic pain, with an emphasis on innovative diagnostic approaches, patient stratification, and interdisciplinary treatment strategies. Key areas of interest include the role of digital health tools, real-world evidence, and the comparative effectiveness of multimodal pain management models, particularly in conditions such as fibromyalgia, postherpetic neuralgia, and complex regional pain syndrome. We aim to compile contributions from diverse clinical disciplines in order to address early diagnosis, optimize long-term outcomes, and explore emerging therapies, including neuromodulation and pharmacological interventions. This Special Issue seeks to provide actionable insights for clinicians and researchers, fostering a collaborative dialogue that shapes the future of chronic neuropathic pain management.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
