

Special Issue

Current Perspectives and Innovations in Urogynecology

Message from the Guest Editor

Urogynecology has evolved into a dynamic subspecialty that encompasses the evaluation and management of pelvic floor disorders, which affect a significant portion of the female population. These conditions—ranging from pelvic organ prolapse to urinary and fecal incontinence—have a profound impact on quality of life and are often underdiagnosed or undertreated due to social stigma and diagnostic complexity. Recent advances in diagnostic imaging, surgical techniques, and minimally invasive procedures, alongside an increased understanding of pathophysiological mechanisms, have broadened the treatment landscape. Additionally, multidisciplinary approaches and personalized medicine are increasingly shaping the future of urogynecological care. This Special Issue of *JCM* aims to highlight contemporary challenges, novel technologies, and the latest evidence in the field of urogynecology. We welcome the submission of original research, comprehensive reviews, and systematic reviews related to the diagnosis, management, and long-term outcomes of pelvic floor dysfunction, including innovative surgical and nonsurgical interventions.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
