Review Special Issue Series: Recent Advances in Hematology

Message from the Guest Editor

This Special Issue aims to present a comprehensive overview of the cutting-edge research developments in the field of hematology that can be applied to better understand blood disorders, transfusion medicine, and hematological malignancies. We invite submissions of articles that delve into emerging therapies, diagnostic techniques, and molecular insights, offering valuable perspectives for researchers, clinicians, and healthcare practitioners. Key themes include precision medicine, immunotherapy, genomics, and targeted therapies. Through this endeavor, this Special Issue seeks to serve as an indispensable resource, bridge the knowledge gaps and foster further advancements in hematology.
